## Dascola Barbers

### Description

This is an effective site for a Barbers that uses a cartoon style to give out a friendly vibe. I like the use of the two main figures as a focal point and the bold colours used on a sparse background.

I do find the name of the barbers difficult to read, which could be clarified by the use of a simpler font, but the animated Barber Shop sign is a nice touch

### Details

This design was featured on Tuesday 01th January 2011. It falls under the category of Misc, and has a layout style of Other.
