70+ Fresh and Beautiful Single Page Website For Design Inspiration

10 January 2011 [No Comments](#) Posted in [Inspiration](#) by [Wajid Khan](#)

One of the interesting trends which I noticed recently is to showcase your work in **single page design**. It's kind of ironic to see what designers can do with single pages as modern age designers love to experiment with things and observe how people interact with their work. Even though this is not a common trend to follow but still as the new design styles come up, and as more and more designers notice them and make use of them in their work, this kind of trends emerge.

In this presentation, you'll find a variety of **Single Page Website Design Inspiration** which is following the same trend of single page designs. We don't want you to follow any specific trend as the aim here is to stimulate your creativity and to inspire your imagination to create your own design trend because
